

ENVIRONMENTAL SUSTAINABILITY POLICY

KEENSELL VENTURES ENVIRONMENTAL SUSTAINABILITY POLICY

“Our faithful stewardship on our environment is the key to continuous harvest under the sun”

Keensell Ventures Limited is committed to complying with Health, Safety and Environmental laws to ensure that a conducive atmosphere is created for efficient and effective activities to be undertaken.

Our specialization on Road and House construction, General supplies and Transport brings out a clear picture of the greater role and impact that we have on environmental sustainability.

Our Environmental Sustainability policy stands on the outlined three pillars:

- **Impacting Knowledge**

Keensell Ventures Limited ensures that all its employees are made aware of all the environmental sustainability measures through trainings and workshops within the nation.

- **Embracing Technology**

Keensell Ventures Limited has endeavored to make use of the day to day technological methods to minimize waste such as; reduction of paper works through storing most data in various machines, recycling and reusing waste where applicable amongst others.

- **Pollution Management**

Having specialized in construction and road works we seek to ensure that we use all means available to reduce some forms of pollution such as air pollution, water pollution, sound pollution and soil pollution.

N/B – Our Environmental Sustainability policy document is subject to continuous assessment and revision following the dynamisms surrounding research and case studies on environment and also the aspect that Keensell Ventures Limited grows towards its achievable goals.
